

G5 & G5^{Plus} Displays

CommandCenter™ & Universal

More than a display, this is your path to the future of Precision Ag. Experience the benefits of the larger, faster and clearer display, no matter the job.

With G5 Advanced*, prepare to take your farm to the next level of automation!

**See G5 Advanced Sales Sheet for more information*

- See more with larger screens, making in-field adjustments easier on-the-go
- Get running faster with quicker boot times
- Catch every detail on our most advanced displays, with visual clarity in any conditions
- G5^{Plus} now includes Section Control in base, along with AutoTrac™ and Documentation, simplifying the purchase experience
- Smooth transition from Gen 4 to G5 with a similar easy-to-use operator experience across large ag equipment
- Required for future sense and act technologies and autonomous capabilities
